CLEANWAY VIRGIN

DEGREASING SURFACE CLEANER **

SURFACES **

WALLS

HANDLES AND SWITCHES

CLEAN SURFACES, EFFICIENT DEGREASING

CLEANWAY VIRGIN effectively cleans and degreases all washable surfaces **: non-floor surfaces, laminates, plastics, painted surfaces, etc. It is perfectly suited for tables, walls, doors, handles, frames, furniture, etc. and meets the requirements of CHR, schools, communities, etc.

CLEANWAY VIRGIN is formulated according to the BIOSURF® process, a selection of biosurfactants with high wetting power. These biosurfactants allow a considerable reduction in product consumption while ensuring excellent efficiency on all washable surfaces, even the most fragile.

CLEANWAY VIRGIN is certified according to European ECOLABEL.

By using CLEANWAY regularly, the environmental impact of cleaning is greatly reduced.

EU Ecolabel : FR/020/020

EFFECTIVE

SAFE

ECO-FRIENDLY

CLEANWAY benefits from the BIOSURF® process (ultra powerful biosurfactants, up to 500 times more effective than conventional chemical surfactants).

CLEANWAY is without risk labeling. It has been formulated to limit the risk of allergies and without GMOs. Its foam sprayer limits the risks of inhalation.

CLEANWAY is eco-designed. It uses active ingredients from renewable resources and its packaging is 100% recyclable (except for the 5 L Poche). It is certified according to EUROPEAN ECOLABEL.

MANUAL :

Ready to use product.
Remember to refill the spray with the 5L format.

1. Spray on the surface to be cleaned
 2. Leave to act
 3. Rub if necessary
 4. Rinse with clean water
- For large surfaces to be cleaned, prefer products to be diluted. Correct dosage saves money and minimizes the impact of the product on the environment.

* If used on surfaces in contact with food, outside the kitchen surface, perform an effective final rinse with sufficient potable water.

ECOWAY® : A complete range without risk labeling for professionals.
